

## PVB SHAPE CUTTER

### SHAPE CUTTER - OVERVIEW

The Shape cutter cuts PVB with a multi-axis movement X-Y-Z. It is driven with a high-precision gear motor.

The PVB is fixed on the conveyor with vacuum to avoid any folds. It is operated with manual loading and unloading.

### CHARACTERISTICS

- Maximum PVB size: 2000 x 2000 mm
- The cutting unit is composed of a blade with manual height adjustment for cutting different-thicknesses
