

4-POINT BENDER FOR PROXY TEST

For glass in building

CONSTRUCTION

The 4-point bending tester meets the requirements of the European Standard for thermally toughened soda lime silicate safety glass: EN 12150 - 2 Proxy test.

It consists of

- Supporting and bending equipment with free rotating rollers
- Electric or hydraulic operation
- Digital load cell

APPLICATION

4-point bending tester

- for flat thermally toughened glass and heat strengthened glass for use in building
- to determine the bending strength, including the effects of the edges,

DIMENSIONS

width	500 mm
height	1800 mm
length	1400 mm
